# NitroHelper installation guide

In this short tutorial, we will show you how to install a handy extension for your browser.

**Step 1** - Go to your Manage extensions page::

**Step 2** - Make sure to enable the Developer options at the top

Step 3 - Download the extension itself using the following link:

> https://github.com/vasetodachev/NitroHelper

Step 4 - Unzip the archive and upload it by clicking "Load Unpacked"

Step 5 - Enjoy
